brennan@njaes.rutgers.edu

Margaret is Associate Director of the New Jersey Agricultural Experiment Station (NJAES), Rutgers University and Director of Economic Development. She is responsible for the development and implementation of new economic growth initiatives. Margaret was the project director for an assessment of the biomass energy potential for New Jersey, commissioned by the New Jersey Board of Public Utilities. The results of this assessment were included in the 2009 New Jersey State Energy Master Plan. Margaret also is responsible for administrative oversight for several Rutgers centers, as well as technology transfer for the NJAES. She is an economist with expertise in economic development strategies, bioenergy economics and policy, and agricultural biotechnology markets.
